The Ultra-Fab Story

From the beginning Ultra-Fab has been dedicated to putting the customer first. This is seen by our (1) always having the highest quality products as proven by our (2) always having the longest warranty, (3) providing important features that are exclusive to Ultra-Fab and (4) and by providing the best customer service in the RV and Trailering industries. With a history of providing quality products to the RV industry, Ultra-Fab is the best choice for quality products.

The jacks and stabilization experts

We have been making power tongue jacks since the 1970s. We have the only complete line of Kingpin stabilizers. We have the only slideout supports that cannot damage the slideout. We have the only scissor jacks with double nut design and the tightest threads in the industry. We have the only tongue jacks with a 10-year warranty. In fact most of our products have a lifetime warranty.

Ultra-Advantage

Indicates items where Ultra-Fab has exclusive benefits or has the longest warranties available on this product type

A reminder Ultra-Fab guarantees your sales. You will never get stuck with product that doesn't sell.

Calls attention to planograms designed with the top moving Ultra-Fab products

Always the longest warranty!

One of my biggest complaints in our camper is the movement when we walk around. Nothing we have tried has fixed that. Until now. These stabilizers took out that movement by holding the slide steady. You saw no movement outside where typically we would see the slide moving. I would highly recommend this to any camper. They are easy to use and quick to put up and take down. - Melanie

Especially with two teenagers in the RV, the weight we put on our dining room slide (which also includes our living room couch) can be excessive. This slide support is great for preventing sag and shaking. It's so quick and easy to setup, take down and store, it has turned into a must have for us when we RV. We bought more so that ALL of our slides are now stabilized! - Chris

These supports are well made, easy to use, take up little space and do wonders to dampen the rocking motion of our rig. I was able to place them under the sides of the slideout when I took the rig out last time and they really stopped a lot of the rocking motion. - D.B.

We really enjoyed these trailer slide stabilizers. They are very effective, easy to set up and take down. They are slim and collapse down so they do not take up much space in your storage areas. We recommend to all our friends. - Justin

The push button release is great because you don't have to worry about spinning it a million times to get it undone. - Amanda

We have an 80lb bulldog that can get crazy and definitely noticed a difference in the movement of camper when he gets the zoomies in a small enclosed space. We look forward to using these on all future camping trips. - Kasey

Don't take our word for it

Skid Rollers

Hitch Mount Steel Rollers

- Prevents damage to motorhome undercarriage caused by tail dragging or digging in to the ground
- Bolts to 2-1/2" or 3" square receiver hitch tubing
- Contacts ground when motorhome would drag or dig into ground
- Heavy duty steel construction is super durable to accept the impact
- Not recommended for use on diesel pusher motorhomes due to the extreme rear-end weight of the motorhome.
- **Grease zerk fitting to maximize lifespan**
- 2 per carton
- "2.25" wheel width x 2.9375" wheel diameter, 1/4" mounting bracket
- Comes with all mounting hardware

UF# 48-979017 - Fits 2.25" hitch bars

UF# 48-979018 - Fits 3" hitch bars

No skid wheel or roller is recommended for diesel pusher motorhomes due to extreme weight in the rear of motorhome.

Receiver Mount Steel Rollers

- Heavy duty receiver protector attaches with pin and clip or with hitch lock.
- Does not require removal of ball mount or other hitch-mounted accessories.
- 2.25" Wheel Width, 2" Diameter
- Fits 2" x 2" trailer hitch receivers
- Pin hole 5/8"

UF# 48-979020

Power Mover

- Quad 12 VDC 140 AH batteries
- Integrated charger and level indicator
- 2 HP continuous-drive motor
- Speed up to 1.6 MPH
- Weight: 1,200lb

Comparison	
Power Mover®	Forklifts
Better Positioning: Better control for positioning on lot, in showroom, etc.	Positioning Challenge: Size of forklift makes it difficult to position trailer in tight spaces.
Protects Trailer: Improved control reduces potential for damage.	Danger: Bulk of forklift and difficulty to see around trailer makes damage more likely.
Protect Jacks: Eliminates bouncing to eliminate tongue jack damage.	Damages Jacks: Most common reason for jack replacements is bouncing from moving trailers with forklift.

Everything you need for great braking!

Trailer Brake Information

Step #1: Find a brand with a 5-year warranty (like Ultra-Fab)

Step #2: Determine weight capacity

- Start by looking on current hub or by measuring diameter of axle and use this guide
- 1.5" or smaller: Ask for 1,000 lb. capacity
- 1.5" - 1.75": Ask for 2,000 lb. capacity
- 1.75" - 2.375": Ask for 3,500 lb. capacity
- 2.375" - 3": Ask for 6,000 lb. capacity
- 3" - 3.5": Ask for 8,000 lb. capacity
- 3.5" - 4": Ask for 9,000 lb. capacity

Step #2: Count studs (figure 1)

Step #3: Determine number of studs

- **Count number of studs (See figure #1)**
- In examples: 5 studs

Step #4: Determine number of studs

- Measure from center of stud to center of axle (see **figure #2**)
- **Double that figure for diameter**
- In example: 2.25" center of stud to center of axle is 4.5" diameter.

Step #5: Determine number of studs

- **Measure size of individual studs (See figure 3).**
- If possible, determine thread pattern (either 18 or 20 grooves per inch, most being 20)

Step #6: Idler & Drum

- Note if this is an idler hub (no brake) or a hub/drum (brake goes inside)

Step #7: Put it all together

- As an example, ask for 3,500 lb., 545 (5 for 5 studs & 45 for 4.5" diameter), 1/2" (length of bolts), 20 (thread count).
- Or, to put it together 3,500 lb., 545, 1/2" - 20.

We guarantee you sell the product

**Guaranteed
Sales**

What do we mean when we say “Guaranteed Sale”?

Simple. You will never get stuck with dead inventory from Ultra-Fab. Period. Whether you purchase individual products, planograms or displays, we guarantee you will sell the product. That's because we don't want you to take any risk when trying Ultra-Fab products. We guarantee your customers will love it. We guarantee the quality of the product. And we guarantee you will sell it.

We know what sells in the market. But we also know that no two dealerships are the same. So, if you have an Ultra-Fab SKU that doesn't sell for you within 12 months of purchase, we will gladly take it back and replace it with an item that does sell well for you. The claim does have to be made within 18 months of purchase and must be in resaleable condition, that way we can get it to a reseller that sells that product regularly and it is in acceptable condition for their customer.

What could be easier? Well, what if we paid the freight... both ways. Well, we do because we don't want you to take any risk when trying Ultra-Fab products. We guarantee your customers will love it. We guarantee the quality of the product. And we guarantee you will sell it.

Ask our competitors why they don't guarantee the sale

4' Ultra-Store

ULTRA-STORE

Dealers love us because we:

- **Protect your reputation:** By always having the highest quality products in our categories (as seen by our always having the longest warranties) and we usually **have unique benefits that** cannot be matched.
- **Protect your profits:** By enforcing our MAP policy.
- **Best display materials:** Provide you with the best display materials available, including our one-of-a-kind shelf talkers.
- **Guarantee the sale:** If anything doesn't sell for you within 12 months, we will exchange it for items that total equal value that will sell.
- **Best customer service:** And we provide the best customer service experience in the industry.
