

Power Mover

The safest way to move trailers around the lot

**25,000lb of push/pull power
1,000lb of front lifting
capacity 3,000lb Center Lift
capacity**

\$16,619
Factory Direct
Plus Freight

**Power Mover 7900
41-007900**

**Precise positioning
(from seamless
variable-speed
adjustments
positioning)**

**Removes bounce
that damages
trailer and tongue
jacks**

**Perfect for all
known types Fifth
Wheel, Gooseneck
and Travel Trailers**

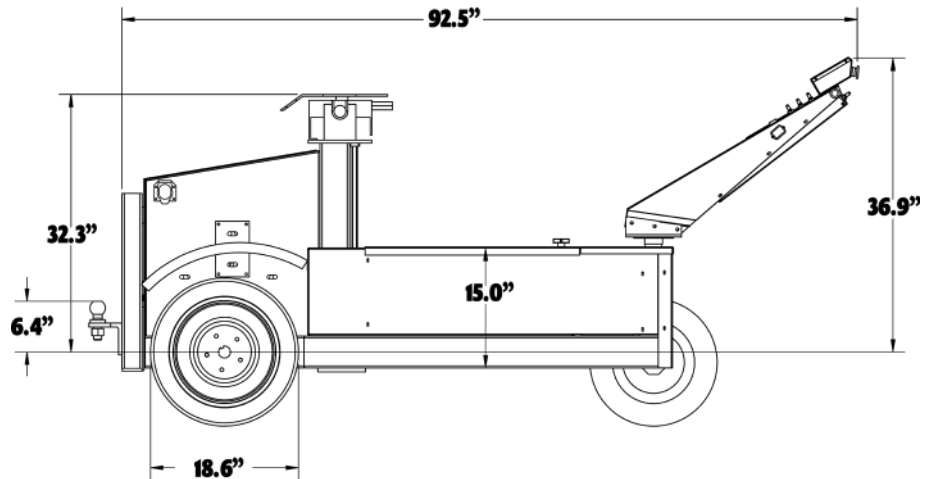

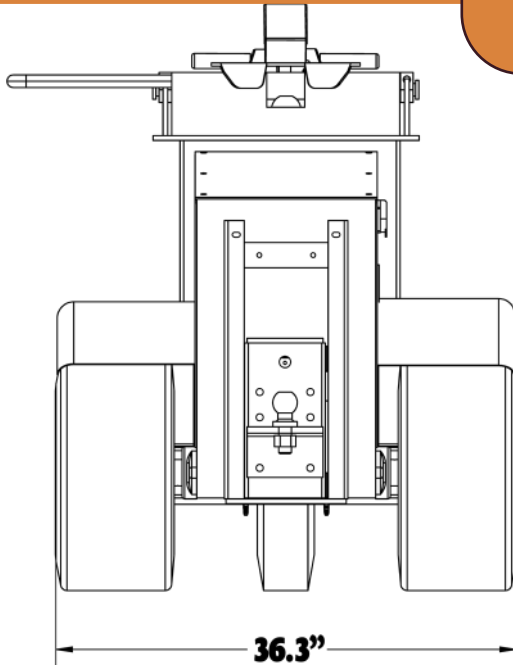

**Ergonomic handle
features forward /
reverse controls**

**Includes both a
2" and 2-5/16"
Hitch Ball**

Exclusively available direct from the factory

Power Mover

- Quad 12 VDC 140 AH batteries
- Integrated charger and level indicator
- 2 HP continuous-drive motor
- Speed up to 1.6 MPH
- Weight: 1,200lb

Comparison	
Power Mover®	Forklifts
Better Positioning: Better control for positioning on lot, in showroom, etc.	Positioning Challenge: Size of forklift makes it difficult to position trailer in tight spaces.
Protects Trailer: Improved control reduces potential for damage.	Danger: Bulk of forklift and difficulty to see around trailer makes damage more likely.
Protect Jacks: Eliminates bouncing to eliminate tongue jack damage.	Damages Jacks: Most common reason for jack replacements is bouncing from moving trailers with forklift.

model 5900—no
custom brackets
required.**

Upgrade your Power Mover for peak performance

Power Mover

- **Add on for Model 5900**
- **Included on Model 7900**

Hydraulic Lift 41-800125

Raise or lower hitch ball while never having to leave the controls of the power mover. Includes both 2" and 2-5/16" hitch balls. Adjust hitch height from 9"-13" with a 7" stroke for flexible trailer hookup. When mounted in the low position, lift from 9"-16". Mounted high, lift from 13"-20". Engineered exclusively for the Power Mover model 5900.

• 41-001040 224# Weight Kit for Model 5900

Increase traction & stability by adding solid cast-iron ballast. Designed to securely mount on the Power Mover—no drilling or special tools required. Powder-coated to resist rust, corrosion, and chipping, ensuring long-term performance in dealer lots and outdoor yards.

Take your Power Mover to the next level
