

ULTRA SERIES TONGUE JACKS

UF Ultra-Fab

The RV Lifting, Leveling & Stabilization Experts

DEMAND AT LEAST A 5-YEAR WARRANTY

"I found installation to be extremely easy and am thrilled with the operation. The 3500 easily handles my 2205s Rockwood Minilite extremely easy.

With the industry's only zerk fitting, we have incorporated the greasing the jack in our regular maintenance schedule.

Expecting this jack to outlast our trailer."

-Michael

"We are selective when it comes to upgrades, always choosing top quality when we replace anything on our vintage travel trailer. With its super sleek design and solid airtight construction, the Ultra-Series Electric Tongue Jack 3500 is an immediate upgrade.

Installation was a breeze, and we can tell it's going to be such a back-saver on our next trip."

-Danielle

"Let's be honest, The Ultra-Fab Electric Tongue Jack 3500 isn't the most exciting RV accessory out there, but, it's arguably one of the most essential. Our previous Jack had given up and we were looking for a solid trusty product, and so far, this is the one.

Easy to replace, and like a workhorse, it's reliable.

Bottom line, would recommend this product to whoever needed a new jack in a heartbeat.

-Chad
