

Farm Jacks

Serious Lifting: Perfect for off road recovery, stuck Jeeps, high clearance trailers, and farm machinery. Designed for mud, sand, and every “why won’t this thing move?” moment.

Pulling & Winching Powerhouse: Doubles as a manual winch—just add chains or straps. Think of it as your off road “come along,” but angrier and more determined.

Pushes & Spreads Like a Champ: Ideal for fencing, construction, and equipment repair. Because sometimes you need to persuade things apart with a little Ultra Fab attitude.

Lifts Sheds, Beams & Backyard Projects: Perfect for popping out fence posts that have been in the ground since the Eisenhower administration. Add chains and watch the magic happen.

Off-Road & Emergency Recovery Hero: Works where hydraulic jacks tap out. A must have in every off road kit. Can even help right a rolled vehicle (with extreme caution and zero heroics).

UF #	Description
38-944200	Farm Jack (48 inch, 8K)
38-944201	Farm Jack (60 inch, 8K)

Strong & Versatile

**Farm
Jacks**

**Raises vehicles and equipment
higher than standard jacks**
