The Ultra-Fab Story

From the beginning Ultra-Fab has been dedicated to putting the customer first. This is seen by our (1) always having the highest quality products as proven by our (2) always having the longest warranty, (3) providing important features that are exclusive to Ultra-Fab and (4) and by providing the best customer service in the RV and Trailering industries. With a history of providing quality products to the RV industry, Ultra-Fab is the best choice for quality products.

The jacks and stabilization experts

We have been making power tongue jacks since the 1970s. We have the only complete line of Kingpin stabilizers. We have the only slideout supports that cannot damage the slideout. We have the only scissor jacks with double nut design and the tightest threads in the industry. We have the only tongue jacks with a 10-year warranty. In fact most of our products have a lifetime warranty.

Ultra-Advantage

Indicates items where Ultra-Fab has exclusive benefits or has the longest warranties available on this product type

A reminder Ultra-Fab guarantees your sales. You will never get stuck with product that doesn't sell.

Calls attention to planograms designed with the top moving Ultra-Fab products

Always the longest warranty!

**Guaranteed
Sales**

What do we mean when we say “Guaranteed Sale”?

Simple. You will never get stuck with dead inventory from Ultra-Fab. Period. Whether you purchase individual products, planograms or displays, we guarantee you will sell the product. That's because we don't want you to take any risk when trying Ultra-Fab products. We guarantee your customers will love it. We guarantee the quality of the product. And we guarantee you will sell it.

We know what sells in the market. But we also know that no two dealerships are the same. So, if you have an Ultra-Fab SKU that doesn't sell for you within 12 months of purchase, we will gladly take it back and replace it with an item that does sell well for you. The claim does have to be made within 18 months of purchase and must be in resaleable condition, that way we can get it to a reseller that sells that product regularly and it is in acceptable condition for their customer.

What could be easier? Well, what if we paid the freight... both ways. Well, we do because we don't want you to take any risk when trying Ultra-Fab products. We guarantee your customers will love it. We guarantee the quality of the product. And we guarantee you will sell it.

Ask our competitors why they don't guarantee the sale

Tow Bars

Tow Force

An Ultra-Fab Product

- TOW WITH CONFIDENCE: Safe, stable, drama-free towing — because white-knuckle towing is just your rig politely begging you to make better life choices.
- HEAVY-DUTY 8,000 LB. TOWING CAPACITY: Real-world strength, not wishful thinking. Reliable, all-terrain towing performance on highways, campgrounds, dirt roads, and everywhere your wanderlust drags you.
- PREMIUM SOLID ALUMINUM CONSTRUCTION: Strong enough for serious towing, lightweight enough to install without needing a protein **shake first.**
- EASY OPERATION & QUICK STORAGE: Self-locking extendable legs automatically center and lock like towing magic. Non-binding handles make disconnecting a breeze. Fold the legs, latch them, and boom — it stows neatly on your motorhome.
- FULLY EQUIPPED & BUILT TO LAST: Heavy-duty safety cables and clevises for instant compatibility. Lifetime Warranty — because Ultra-Fab doesn't believe in "temporary."

Farm Jacks

New For
2026

Serious Lifting: Perfect for off road recovery, stuck Jeeps, high clearance trailers, and farm machinery. Designed for mud, sand, and every “why won’t this thing move?” moment.

Pulling & Winching Powerhouse: Doubles as a manual winch—just add chains or straps. Think of it as your off road “come along,” but angrier and more determined.

Pushes & Spreads Like a Champ: Ideal for fencing, construction, and equipment repair. Because sometimes you need to persuade things apart with a little Ultra Fab attitude.

Lifts Sheds, Beams & Backyard Projects: Perfect for popping out fence posts that have been in the ground since the Eisenhower administration. Add chains and watch the magic happen.

Off-Road & Emergency Recovery Hero: Works where hydraulic jacks tap out. A must have in every off road kit. Can even help right a rolled vehicle (with extreme caution and zero heroics).

One of my biggest complaints in our camper is the movement when we walk around. Nothing we have tried has fixed that. Until now. These stabilizers took out that movement by holding the slide steady. You saw no movement outside where typically we would see the slide moving. I would highly recommend this to any camper. They are easy to use and quick to put up and take down. - Melanie

Especially with two teenagers in the RV, the weight we put on our dining room slide (which also includes our living room couch) can be excessive. This slide support is great for preventing sag and shaking. It's so quick and easy to setup, take down and store, it has turned into a must have for us when we RV. We bought more so that ALL of our slides are now stabilized! - Chris

These supports are well made, easy to use, take up little space and do wonders to dampen the rocking motion of our rig. I was able to place them under the sides of the slideout when I took the rig out last time and they really stopped a lot of the rocking motion. - D.B.

We really enjoyed these trailer slide stabilizers. They are very effective, easy to set up and take down. They are slim and collapse down so they do not take up much space in your storage areas. We recommend to all our friends. - Justin

The push button release is great because you don't have to worry about spinning it a million times to get it undone. - Amanda

We have an 80lb bulldog that can get crazy and definitely noticed a difference in the movement of camper when he gets the zoomies in a small enclosed space. We look forward to using these on all future camping trips. - Kasey

Skid Rollers

Hitch Mount Steel Rollers

- Prevents damage to motorhome undercarriage caused by tail dragging or digging in to the ground
- Bolts to 2-1/2" or 3" square receiver hitch tubing
- Contacts ground when motorhome would drag or dig into ground
- Heavy duty steel construction is super durable to accept the impact
- Not recommended for use on diesel pusher motorhomes due to the extreme rear-end weight of the motorhome.
- **Grease zerk fitting to maximize lifespan**
- 2 per carton
- "2.25" wheel width x 2.9375" wheel diameter, 1/4" mounting bracket
- Comes with all mounting hardware

UF# 48-979017 - Fits 2.25" hitch bars

Receiver Mount Steel Rollers

- Heavy duty receiver protector attaches with pin and clip or with hitch lock.
- Does not require removal of ball mount or other hitch-mounted accessories.
- 2.25" Wheel Width, 2" Diameter
- Fits 2" x 2" trailer hitch receivers
- Pin hole 5/8"

UF# 48-979020

No skid wheel or roller is recommended for diesel pusher motorhomes due to extreme weight in the rear of motorhome.

Built to take the impact

Skid Wheels

Skid Wheels Swivel / Weld-on

- Drop forged caster provides superior strength
- Ultra strong metal wheel includes roller bearings and .25" urethane on outer edge
- Simple bolt-on installation
- **Zerk fitting for maximum life.**

Cargo Carriers

Trailer Mounted Accessory Adapter

Used for bike and cargo carriers. Engineered to fit most recreational vehicle frames including I-beam, C-channel, and rectangular sections. Heavy duty steel construction. Durable powder-coated finish. Adjusts from 47.125" to 77". 350# tongue weight capacity.

UF# 35-946403

RV Bumper Receiver Adapter

Fits 4" square RV bumpers. **Durable powder-coated finish** 200# tongue weight capacity. Accepts 2" carrier tubes. Zinc plated hardware included. Not recommended for towing.

UF# 35-946401

Universal RV Bumper Hitch

3,500# towing capacity. 350# tongue weight capacity. 2" square receiver opening. U-Bolts mount to 4" square bumpers. Easy bolt-on installation. Durable powder coated finish.

UF# 35-946402

Use your hitch to allow for more storage

Cargo Carriers

Cargo Carrier

Expand your carrying capacity by using this hitch-mounted cargo carrier. Easily carry 500#. The metal mesh platform eliminates standing water. Convenient tie-down utility holes. Fits 2" receiver hitches. 19.25" x 60"

UF# 48-979029

Tow Dolly Tie Down Strap

Securely transport your car **on a dolly. Quickly fits and** adjusts to 14" to 16" tire sizes. One-piece design – no pre-assembly required. Tough, non-abrasive nylon metal hooks attaches on driver's side or passenger's side. Durable 5,000# capacity. Compatible with most tow dollies. One per package.

UF# 46-700034

Spare Tire Carrier - Universal

Carry a spare just in case... **Easily converts from fixed to** fold-down for easy access to rear storage compartment. Bolts to 4" square bumpers only. Designed to minimize tire vibration. Includes all items for set-up and use. 60# capacity. 1-year warranty.

UF# • 15-954730

Bike Rack

Attaches to Ultra-Fab and other brands of cargo carriers to provide a safe and stable ride for your bicycles. Rugged steel construction and durable powder coated **finish for years of reliable** service and good looks. Convenient tie-down strap included. Lightweight for easy mounting. Installs easily in just minutes.

Power Mover Accessories

Add on for Model 5900 Replacement for Model 7900

41-880009 Foam Filled Tire (Upgrade Only) Two Tires

41-500125 Foam Filled Tire (Single Tire)

Puncture-Proof Tire. Solid **foam-filled core eliminates flats caused by nails, screws or debris.** Increases traction. Swap directly with the pneumatic tire on the Power Mover model 5900. 18" tall x 9.5" wide.

41-940439
Horn Kit

Super loud horn emits a clear audible warning, ensuring bystanders and coworkers recognize moving equipment instantly. Engineered **specifically for easy bolt-on installation** to Ultra-Fab Power Mover model 5900—no custom brackets required.

**Model 5900
or
Model 7900**

Model 5900 or Model 7900

Pintle Hook Attachment
41-013682

Adds pintle hook to Power Mover model 5900 for versatile towing options. Precision-machined hook bolts directly to the hydraulic lift assembly. Heat-treated steel with a **corrosion-resistant finish.**

Spring Caster (Heavy Duty)
41-500110

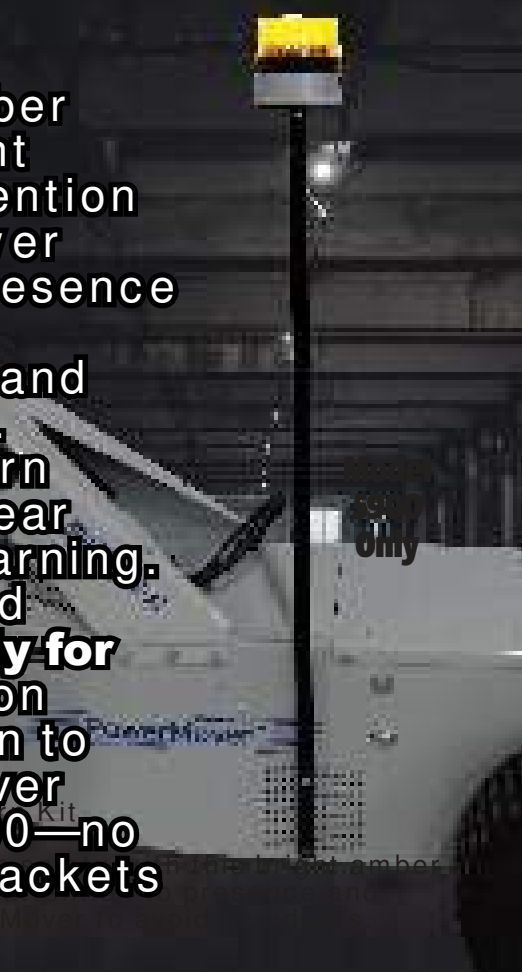

Model 5900 or Model 7900

6" shock-absorbing spring caster with polyurethane wheel reduces vibration and jolts for effortless trailer positioning. Supports high loads and enhances stability on uneven surfaces. Replaces the standard rear caster on Power Mover 5900. **Corrosion-resistant finish.**

41-810050 Strobe Light & Horn Safety Package

Bright amber strobe light draws attention to the Power Mover's presence to prevent collisions and accidents. Built-in horn emits a clear audible warning. Engineered **specifically for easy bolt-on installation** to Power Mover model 5900—no custom brackets required.

Upgrade your Power Mover for peak performance

Power Mover Accessories

- **Add on for Model 5900**
- **Included on Model 7900**

Hydraulic Lift
41-800125

Raise or lower hitch ball while never having to leave the controls of the power mover. Includes both 2" and 2-5/16" hitch balls. Adjust hitch height from 9"-13" with a 7" stroke **for flexible trailer hookup. When** mounted in the low position, lift from 9"-16". Mounted high, lift from 13"-20". Engineered exclusively for the Power Mover model 5900.

- **41-001040 224# Weight Kit for Model-5900**

Increase traction & stability by adding solid cast-iron ballast. Designed to securely mount on the Power Mover—no drilling or special tools required. Powder-coated to resist rust, corrosion, and chipping, ensuring long-term performance in dealer lots and outdoor yards.

Take your Power Mover to the next level

- **SAFE, RELIABLE BRAKING POWER:** Engineered for consistent stopping performance on your trailer; because stopping shouldn't be optional.
- **STANDARD OR FULLY LOADED ASSEMBLY:** Loaded hubs come prepacked with bearings, races, grease seals and grease (preloaded). Also includes cone wheel nuts, hub cap and cotter pin. — Basically everything but the mechanic's coffee.
- **HEAVY DUTY GREY IRON CONSTRUCTION:** Precision machined hub & drum built to resist wear and extend brake life; durable strength for RVs, boats, and utility trailers.
- **ULTRA FAB CONFIDENCE GUARANTEE:** Easy installation, long lasting durability, and backed by Ultra Fab's industry leading 5 year warranty for peace of mind.

Amazing quality on Hubs

Trailer Brake / Hub Kits

2 packs
(1 left brake,
1 right brake, 2
matching hubs)

4 packs
(2 left brakes, 2
right brakes, 4
matching hubs)

Why buy singles when you can save on a complete job?

Idler Hubs

PERFECT IDLER HUB: Light and medium-duty trailer axles—because your cargo deserves smooth rides, not roadside drama. Ideal RV hub replacement or cargo trailer hub for appropriate trailers.

IRON-CLAD CONSTRUCTION: Made from 100% iron for durability that laughs in the face of potholes, rain, and questionable parking jobs.

CUSTOMER-FRIENDLY PRICE: Affordable, reliable, and built to last—because saving money shouldn't mean sacrificing safety.

Idler Hub Cross Reference							
Capacity	Studs	Hub Diameter	Stud Diameter	Threads	UF#	Dexter #	Lippert #
2,000lb	4	4"	1/2"	20	48-979507	008-258-5UC1	LC134452

3,500lb	5	4.5"	1/2"	20	48-979509	K08-248-95	2024029104

Built to keep you rolling

Trailer Brake Information

Step #1: Find a brand with a 5-year warranty (like Ultra-Fab)

Step #2: Determine weight capacity

- Start by looking on current hub or by measuring diameter of axle and use this guide
- 1.5" or smaller: Ask for 1,000 lb. capacity
- 1.5" - 1.75": Ask for 2,000 lb. capacity
- 1.75" - 2.375": Ask for 3,500 lb. capacity
- 2.375" - 3": Ask for 6,000 lb. capacity
- 3" - 3.5": Ask for 8,000 lb. capacity
- 3.5" - 4": Ask for 9,000 lb. capacity

Step #2: Count studs (figure 1)

Step #3: Determine number of studs

- **Count number of studs (See figure #1)**
- In examples: 5 studs

Step #4: Determine diameter

- Measure from center of stud to center of axle (see **figure #2**)
- **Double that figure for diameter**
- In example: 2.25" center of stud to center of axle is 4.5" diameter.

Step #5: Determine diameter of studs

- **Measure size of individual studs (See figure 3).**
- If possible, determine thread pattern (either 18 or 20 grooves per inch, most being 20)

Step #6: Idler & Drum

- Note if this is an idler hub (no brake) or a hub/drum (brake goes inside)

Step #7: Put it all together

- As an example, ask for 3,500 lb., 545 (5 for 5 studs & 45 for 4.5" diameter), 1/2" (length of bolts), 20 (thread count).
- Or, to put it together 3,500 lb., 545, 1/2" - 20.
