Prevents
sag
common
to aging
slideouts

SPEND A LITTLE NOW, SAVE A LOT LATER

SLIDEOUT SUPPORTS

Only support that cannot damage the slideout

Problem: Slideout supports with handles can be overtightened. This causes a separation between slideout and RV.

Ultra-Advantage

Only support that cannot damage the slideout

Ultra-Advantage

Only support with nylon nut. Will strip before damaging the slideout.

Lifetime Warranty: If nut ever strips, contact Ultra-Fab for replacement.

One of my biggest complaints in our camper is the movement when we walk around. Nothing we have tried has fixed that. Until now. These stabilizers took out that movement by holding the slide steady. You saw no movement outside where typically we would see the slide moving. I would highly recommend this to any camper. They are easy to use and quick to put up and take down. - Melanie

Especially with two teenagers in the RV, the weight we put on our dining room slide (which also includes our living room couch) can be excessive. This slide support is great for preventing sag and shaking. It's so quick and easy to setup, take down and store, it has turned into a must have for us when we RV. We bought more so that ALL of our slides are now stabilized! - Chris

These supports are well made, easy to use, take up little space and do wonders to dampen the rocking motion of our rig. I was able to place them under the sides of the slideout when I took the rig out last time and they really stopped a lot of the rocking motion. - D.B.

We really enjoyed these trailer slide stabilizers. They are very effective, easy to set up and take down. They are slim and collapse down so they do not take up much space in your storage areas. We recommend to all our friends. - Justin

The push button release is great because you don't have to worry about spinning it a million times to get it undone. - Amanda

We have an 80lb bulldog that can get crazy and definitely noticed a difference in the movement of camper when he gets the zoomies in a small enclosed space. We look forward to using these on all future camping trips. - Kasey
